

Strategic Planning That Actually Works

Most organizations don't fail because they lack a plan. They fail because they weren't ready to execute one.

We assess, align, and build strategies your organization can actually carry out.

Assess → Plan → Execute

Start with a State of True Readiness – Not Just Planning

Every engagement begins with a complimentary **House of Governance Inspection™** – a 10-question diagnostic that quickly reveals whether your organization is positioned to successfully execute a strategic plan.

In just a few minutes, you'll gain insight into:

- Board alignment and focus
- Accountability and follow-through
- Leadership structure and continuity

Only 3-4 minutes to complete. Any leader can take it.

Score Ranges:

40-50.....Strong Foundation
30-39.....Functional but Fragile
<30 At Risk

Before we build your plan, we identify what could prevent it from succeeding.

Why This Approach Works

Diagnose First.....Identify risks before planning begins

Align Leadership....Board and staff moving in same direction

Use Real Data.....Decisions grounded in stakeholder insight

Drive Execution.....Tools and structure that keep plans moving

A strategic plan shouldn't just sit on a shelf. It should *move your organization forward.*
